## SUMMARY

I am a Web Front-End Engineer and Developer with strong expertise in HTML, CSS, JavaScript, and React. I specialize in crafting modern, user-friendly interfaces and have exceptional skills in building responsive designs that adapt seamlessly to all devices. With a passion for clean code and attention to detail, I excel at turning creative ideas into functional and visually appealing web experiences.

## SKILLS

### UI/UX Design

- I design modern user interfaces and smooth user experiences that ensure both beauty and usability.

### Web Development

- I develop responsive and modern websites using the latest technologies and best practices.

### Maintenance

- I provide ongoing maintenance and support to keep your website running smoothly and efficiently.

## EXPERIENCE

### Student at Al-Albayt University

Working with tools will save you 80% of the time and effort that a front-end developer spends.

## LANGUAGES

Arabic, English, Turkish
